

Board Policy 808: Community Activities - Solicitation Activities at IVCCD

Community Relations

No activity requiring students and staff to assist in promoting campaigns (financial, educational, charitable, or otherwise) which demand the time of students, teachers, and administrators, will be permitted, except as hereinafter provided, unless the same will be deemed in accord with the general policies of the Board of Directors.

No agent or persons will be permitted to solicit a staff member or student for any purpose, or distribute circulars, handbills, cards, or advertisements of any kind, or take up contributions on the premises of Iowa Valley Community College District for any purpose whatsoever, without prior written approval from the President or the President's designated official in accord with the general educational policies of the Board of Directors. Nor will anyone solicit on behalf of the District, or any entity thereof, without prior written approval from the President or the President's designated official in accord with the general educational policies of the Board of Directors.

Discretionary participation by students in charity activities is considered to be a desirable part of their total education. Approval, or any restrictions, on solicitation activities will be based on the commercial nature of the solicitation and/or reasonable operational concerns, as opposed to viewpoint.
